

Understanding Exchange Rates

Topic: Currencies | Age band: Strategist

Name: _____

Date: _____

Given information: These are made-up currencies for practice — not real money. Today, imagine 1 Zeti = 2 Blips.

Zetis	Blips (your answer)
5 Zetis	
10 Zetis	
20 Zetis	
Now imagine the rate changes to 1 Zeti = 1.5 Blips. Convert 10 Zetis again:	

Reflection: Why did the same 10 Zetis convert to a different number of Blips the second time?
