

How a Card Payment Actually Works

Topic: Digital Money | Age band: Builder

Name: _____

Date: _____

Put these steps in the correct order.

A green tick or receipt appears — the payment is confirmed	
The card is tapped on the machine	
The payment moves from the buyer's account to the seller's account	
The system checks there's enough money in the account	

Write 1, 2, 3, 4 (and 5, if needed) in the number boxes to show the correct order.
